

**COLORFABB  
TIME-LAPSE CONTEST**

**25-06 / 25-07**

---

**Requirements &  
Guidelines**

Get your camera, laptop and 3d printer ready, it's time for some time-lapse action! At colorFabb we like time-lapse videos a lot! We try to make at least 2 every week, printing great designs posted on thingiverse or youmagine. A time-lapse allows you to capture the magic of 3d printing one frame at a time, when played back at normal speed time appears to be moving faster and thus lapsing.

You can 3d print anything you want, use any type of 3d printer and material. We're looking for time-lapses that capture the beauty of 3d printing and do this in an exceptional and clever way.

### **The winners**

We know that making a time-lapse is a lot of work and takes quite a bit of preparation, that's why we're rewarding the 1st place winner with a colorFabb Value Pack! The Value Pack retails for 400,- euro excl. tax and allows you to configure 16 spools of filament yourself! The Second place will be rewarded with 4 spools of material and the third gets to select 2 spools of material.

- 1st - colorFabb Value Pack
- 2nd - 4 spools of colorFabb 3d printing filament\*
- 3rd - 2 spools of colorFabb 3d printing filament\*
- Most views - 2 spools of colorFabb 3d printing filament\*

*\*this prize excludes bronzFill*

## 1. REQUIREMENTS

### You must include

- Printer settings and slicer settings so other people can learn from your approach.
- Do not forget to acknowledge the original designer of the model you're printing, if possible link to his work, portfolio or website.
- State the material that you're printing with.
- Upload video to youtube with the following tag: „colorFabb Time-Lapse contest”
- include „colorFabb” in the title of your youtube video when uploading
- Must be uploaded between 25-06-2014 and 25-07-2014.

### Print guidelines

You are free to print anything you like so get those creative juices flowing and think of something amazing to print!

### Time-lapse guidelines:

There is only one rule for the time-lapse, it should show a 3d printer in action. You can decide yourself how you're going to show this, surprise us with some original thoughts!

### Winning designs will be:

- original, something we haven't seen yet.
- complex printed parts, showing off your amazing 3d printer.
- a quality time-lapse video, take care of composition, timing etc.

### Most youtube views:

although we don't associate number of views with quality or originality, we do want to reward the video with the most views on youtube..
